Dear FASRO Members,

The Florida Association of School Resource Officers is committed to providing content relevant training to school resource officers, police, and educators across Florida. As we move into the school year with the threat of COVID lingering and later into what will hopefully be a post COVID end of year, we want to follow this past year's motto of, Lead-Never Follow.

Over the last 41 years FASRO has provided law enforcement and educators with tools and knowledge to take back to their daily jobs. As resource officers we have that unique ability to impact students throughout the state with the training we receive here but most importantly it is the care and compassion we exhibit each day, that make the most difference.

It's the organization's mission to support and educate you, our members as you are the backbone of this organization. In these times, while some are calling for the "defunding our profession", we need to remain true to ourselves, by remaining steadfast in our commitment to protecting our most precious resources, our children.

I am honored to be your 2020-2022 President and I am committed to seeing that Florida's School Resource Officers and Deputies are among the best educated officers in this great nation. Stay safe and I look forward to seeing everyone July 26, 2021 at the beautiful Hilton Lake Buena Vista (Disney Springs).

Respectfully,

**Samantha Schill**

Samantha Schill  
President- Florida Association of School Resource Officers
